## Rive Sud Interior Four Perfumed Candles

11/21/13 12:29:09

By: **Elena Knezhevich**

French perfume house Rive Sud Interior has introduced its first collection of perfumed candles created by **Delphine Thierry**.

**Via della Basilica:**

"A tribute to Pavese, this 'incensed' fragrance takes us right up the path that leads to the basilica: a perfect match of incense overflowing with pepper, sharpened with myrrh."

**Rosewood:**

"A warm and extremely delicate fragrance, Rosewood opts for a wooded world: rosewood, guaiac, with a touch of cinnamon."

**Cap Ferrat les Pins:**

"A sunny land with a resinous accent giving off a salty fragrance: a very special gentleness for this third creation of the collection."

**Acqua di Latte:**

"Genesis, a white bouquet tinged with angelica bathed in freshness, enhanced with star anise and white musk: smooth notes for a beautiful olfactory poem."

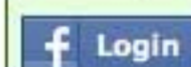

You might already know some of Delphine's works: **Guerlain Aqua Allegoria Grosellina**; **L'Occitane Ambre, Fleur d'Oranger, Oh! de Moschino**; **Etro Vicolo Fiori**; **Lubin Akkad and Galaad**; **Majda Bekkali Tendre Est La Nuit** and many others.

I had a chance to smell one of Rive Sud Interior candles—Via Della Basilica. I received a sample, but the actual size of the candle is impressive (*pictured above*): it weighs 1100 gr. Rosewood is produced in the same size and poured in a container of similar design. Two other candles are smaller, 220 gr (*pictured below*).

### VIA DELLA BASILICA *black pepper, myrrh, incense*

As we know from the list of perfumes created by the perfumer, Delphine Thierry is a master of warm enveloping amber and incense compositions, and I am a lucky owner of one of the most appropriate scents for home in winter! My relationship with perfumed candles is not as easy as with perfumes. I used to live in a house with a big family, where everyone has his/her own tastes and preferences and, since it has never been a palace, very limited space to co-exist together. I do not like loud and bright home fragrances, and I expect a candle to give as much smell and as much light as it can produce.

Via della Basilica provides a very special quiet and cozy atmosphere, I would describe it as a delicately incense, with nuances of beeswax, woods and spices. I smell and imagine a hospitable house I used to visit a long time ago. It was built in the middle of a foresty nowhere. It was heated by a huge Russian furnace— a handy thing, where you can cook, bake, take a bath, and on which you dry clothes, shoes and sleep. The furnace was the soul of the house all year round. A candle for me is a miniature relative to a furnace. Although it's totally useless, it gives you a little cozy light and, if it's properly scented, peace of mind.
